coat by a sneak thief some time last night.

morning entered the chicken yard of Ben  
Wilkins, near the Colorado smelter, and  
carried off 20 fowls.

considerable time the last week in  
search for the county auditor, but have been

In a Precarious Condition.

BUTTE, Feb. 13.—William Hedd, the man  
who was accidentally shot in the abdomen  
by a friend last night, is still in a pre-  
carious condition. The physicians decided  
that laparotomy with internal operation that  
could save him, and the intestines were  
found punctured in 11 places. The bullet  
entered the abdomen a little to the left of  
the navel, and an incision six inches in  
length was made near the wound and the  
task of probing for the bullet began.  
Slight hopes are entertained of his recovery.

How to Win," is the subject of a lecture

The lecture will begin at 8 o'clock. It is  
given under the auspices of the Chautauqua

IN SPORTING CIRCLES

The Coming State Championship Pigeon  
Shoot in This City.

SIX-DAY GO-AS-YOU-PLEASE

To-Night the Walking Match Will  
Commence—Interest in the  
Tug of War Birds  
Will Fight.

BUTTE, Feb. 13.—John Cowan is practicing  
every day for his match for the cham-  
pionship of Montana with Emil Hansen of  
Deer Lodge, which comes off next Satur-  
day. The match will be held at the  
grounds of the Butte Rod and Gun club in  
this city and admission will be free. The  
shoot will be at live pigeons. Cowan was  
practicing on the grounds this afternoon  
with some five birds of his own. The great  
match will not be the only event of the  
afternoon. There will be a number of  
sweepstakes to aid in filling up an after-  
noon of rare sport.

The Centerville Gun club today ordered  
5,000 blue rocks and some traps, and will  
soon be in shape to hold matches at regu-  
lar dates. There will be a shoot to-mor-  
row by members of the club, at grounds  
near the Lexington. The club is planning  
to lay out regular grounds and to erect a  
club house, but a situation has not yet  
been selected. The club will be prosper-  
ous, for its members are 30 of the best  
men in Centerville. After they get in  
shape there will be tournaments between  
the Centerville and the Butte clubs.

Sam Reynolds is as proud as a boy over  
his new gun. It is a Parker hammerless  
weapon, and it knocked the dust out of  
clay pigeons. Friday evening in a manner  
that filled his heart with joy and the rest  
of the Centerville boys with envy.

The greatest cocking main ever held in  
Montana is now on the tapis. It is to be a  
grand six days fight between the birds of  
Salt Lake and the birds of Butte. All  
arrangements are not yet completed, but  
it is planned to have the main open at the  
Milwaukee beer hall on March 17 and last  
Saturday. There will be 31 battles in all,  
and the side winning 16 of the 31 battles  
will have a prize of \$800. There are not 31  
birds of fighting proclivities in Butte just  
now, but there are about 29 and more have  
been telegraphed for. The Butte birds  
have been idle for some time and are dead  
anxious to put on the gloves with  
everybody's Lake birds. There will be  
five battles each night and  
six the last night, making 31 for the  
week.

The walking match begins Monday  
evening and continues until the following  
Sunday evening without a stop. There are  
10 entries, of whom the famous Dan  
O'Leary is one. A sawdust track has been  
laid out at the Pavilion rink, with a bridge  
crossing it from the entrance to the center  
of the hall, so that spectators can stand  
inside the track or outside of it, as they  
please. The management promises that  
everything is square and that the walkers  
will have to keep moving in order to win,  
as it is required that 400 miles be covered in  
order to win a prize. On the opening night  
a gold medal will be given to the con-  
testant who covers the most  
miles on a run without stopping.

Several will make an especial  
effort to win this prize, while others will  
nurture their strength, knowing that they  
have a six-days' tramp before them. The  
rink will be open day and night. The  
walkers each have rooms and bunks,  
where they will occasionally snatch an  
hour or two of sleep and take their meals.  
A six-day go-as-you-please match is a  
novelty in this part of the country, but  
such matches, when honestly conducted,  
often arouse great excitement in eastern  
cities.

Few sporting events of the season will  
excite greater interest than the tug of war  
which comes off in two weeks between the  
Irish and the Italians. There is \$2,000 in  
cash up as a stake on the result, \$1,000 a  
side, and there is also likely to be as much  
more waged on the side. The Italians,  
with one exception, will have the same  
team that took part in the recent tourna-  
ment, while the Irish have the Irishmen  
of the city to pick from and are scouring  
the town for first-class men.

Jimmy Job's wild cat is dead. After a  
week of captivity it pined away. Civilized  
food didn't agree with him and Job's bar-  
room didn't afford enough excitement and  
food for thought for one of his adventurous  
dispositions. So the fight with the bull dog  
is off.

T. E. Butler of this city has been granted  
the score card privileges for Anaconda and  
Butte in the coming race meetings, and  
will probably have the privileges as well  
for Dillon and the rest of the circuit. The  
cards will be the nearest ever gotten out in  
Montana. The covers will be beautifully  
illustrated.

News comes to his old friends in Butte  
that Jack Carkeek, the noted Cornish  
wrestler, who struggled with Pascoe, Gil-  
bert and others in the ring in Butte, that  
he has given up wrestling with the Cornish  
and has joined the Methodist church and  
is wrestling with the evil one as a Meth-  
odist exhorter. He is in Anaconda, Cal.

Jack King is out with a challenge to meet  
any man, Stranger Lewis preferred, in a  
wrestling match.

Below are given the records of the en-  
tries for the walking match:

First.—Dan O'Leary, who needs no in-  
troduction, as he is known the world over,  
was born in Dublin, Ireland, and held  
the world's championship for several  
years as a heel and toe walker. He has  
walked in all the principal cities of  
America and Australia, as well as in sev-  
eral cities of Europe. His best record was  
made in London in 1877, when he covered  
539 1/2 miles.

Second.—Richard Lacourse was born in  
Canada and is of French descent. He has  
held the language quite fluently. He held the  
championship for long distance running  
of the United States for several years.  
He won several races in New York and  
Boston and was for two years, under the  
same manager with John L. Sullivan, Mr.  
Lacourse's best record was made in New  
York, when he defeated Frank Hart by  
covering 587 miles. Mr. Lacourse was  
training today and feels confident of  
winning.

Third.—Earnest McCauley, born in Can-  
ada and is of Scotch descent. He has  
been in a number of races in the East.  
His first race was in Toronto in 1882, of  
72 hours, and won fourth place in a race  
of 17 entries. Mr. McCauley's present  
home is in Philadelphia, and is well known  
in Butte and has worked here at carpenter-  
ing.

Fourth.—E. Johnson, colored; born in  
Charleston, W. Va. His first race was at  
Cleveland, Ohio, in 1888, at which time he  
won second place and covered 481 miles  
in six days. He next ran in New York  
in 1887, covering 530 miles. His last race  
was at Detroit in a five-day race, in which  
he won second money.

Fifth.—J. Hyde, the colored winner of  
the Anaconda race, was born in Nashville,  
Tenn. He defeated Lacourse and O'Leary  
and eight others in the Anaconda race

and holds the championship for the states  
of Missouri, Tennessee and Kansas. His  
best record was made in Nashville, Tenn.,  
in 1884, at which time he covered 530  
miles.

Sixth.—Stephen Loutelli is a powerful  
man and a subject of sunny Italy. He was  
huntsman to a noted dignitary of his na-  
tive country and has taken many a long  
tramp with his master's hounds.

Seventh.—Harry Jones, who surprised  
every one at Anaconda in the late race  
there on hand and says he will surprise  
them here. He won fourth place, covering  
163 miles in 48 hours. Mr. Jones is a very  
light man, only weighing about 100 pounds.  
He is feeling good and feels confident of  
doing good work.

Eighth.—Fred Rousseau is from Michigan,  
where he won the championship in 1889,  
but lost it in 1890. Mr. Rousseau has only  
been in Butte a short time, and this will  
be his first race in the West.

Ninth, Tenth and Eleventh.—George De  
Lish, J. Sullivan and an unknown, all  
claim to be amateurs.

BELLAMY PLACE.

Adjoining the Townsite of Beautiful  
Bozeman, in the Gallatin Valley.

The scheme to establish the Edward  
Bellamy theory at Bozeman is meeting  
with popular approval. More than a  
dozen parties have purchased lots during  
the week of the Bozeman syndicate, desir-  
ing to pool their smaller or larger means.  
It is not probable that they will advance  
farther in the coming six months than to  
establish a creamery plant and erect tem-  
porary houses for at least 60 to 75 families.  
How easy it would be to use a little  
money in the purchase of a few  
cows and some poultry and make a  
comfortable living from the outset. By  
this means they will have the advantages  
of a city and country. A lady purchased  
12 lots of the Bozeman syndicate on yester-  
day and will build a Working Woman's  
Educational home on them in the spring.  
Several benevolent parties, ladies and  
gentlemen, have signified their willing-  
ness to make donations to such an object  
of charity. Working girls will be taken  
and kept at a small sum per month till  
work is secured, and they will also be  
taught to be useful help. The syndicate  
is prospering and has gained the confi-  
dence of the public. They intend to fur-  
ther secure a franchise for a street rail-  
way, running it from the Bozeman hotel  
and opera house to the center of their  
addition. The ground on which Bellamy  
Place will be situated is level, so to speak,  
rolling enough for sewerage, and last of  
all what more could you ask?

In Police Court.

BUTTE, Feb. 13.—No cases were tried in  
police court today. There were six ar-  
raignments. Louis Stuart pleaded guilty to  
committing a nuisance and paid \$5 and  
costs. George Ott pleaded guilty to dis-  
turbance in Galena street and was com-  
mitted to eat out a fine of \$5 and costs.

Bill Kelly, for disturbance in the Clipper  
Shades, was committed to serve out \$5  
and costs.

D. W. Turner and Tim Danforth, for  
disturbance in the same place, pleaded  
not guilty, and will be tried at 4 o'clock on  
Monday afternoon.

Jerry Allen pleaded guilty to distur-  
bance in Galena street and paid \$5 and  
costs.

Goes to the Courts.

BUTTE, Feb. 13.—President Byllesby and  
Mr. Wells of the Northwestern Thompson-  
Houston Electric company of St. Paul are  
in Butte to consummate the purchase of  
the Silver Bow electric light plant. They  
made a tender of the money and the stock  
handed to them, but they claimed that the  
stock was not in shape for a legal transfer  
and refused to accept it. The matter will  
now have to be settled in the courts. The  
consideration of the transfer was to be  
\$21,500.

Still Unsettled.

BUTTE, Feb. 13.—There is still delay in  
the final adjustment of the railroad  
trouble, but both the railroad people and  
the union folks say that everything is  
practically settled, and all that is now re-  
quired is word from Contractor Guthrie.  
Major Dawson telegraphed for him today  
all come to see for themselves. People in  
the neighborhood are confident that the oc-  
cupants of the cabin themselves set fire to  
it, but there is no proof of such being the  
case.

TO ENLARGE THE CITY

Views Expressed by City Officers and  
Prominent Citizens.

IT IS A GOOD PROPOSITION

Reasons Why South Butte and  
Other Suburbs Should Be  
Within the City  
Boundaries.

BUTTE, Feb. 13.—The matter of enlarg-  
ing the city limits by taking in some of the  
more important suburbs will be brought  
up probably at the next council meeting,  
by the committee on plats and additions.  
Alderman Campbell, who declares he will  
do his utmost to have the city enlarged  
this spring, will see City Attorney Cotter  
before the next council meeting as to the  
steps necessary to be taken. Some are of  
the opinion that it will be necessary to  
have an extra election. Alderman Camp-  
bell does not think so, and is of the opin-  
ion that the people can vote as to admis-  
sion to the city, and elect city officers, too,  
at the regular municipal election in April.  
But the city attorney will be asked to de-  
cide on this point.

"I think those in the Parrot corner op-  
posed to annexation to the city and who  
are going to call a mass meeting are very  
few in number," said Alderman Campbell  
today. "I have talked with a good many  
down there, and I believe most of them  
are in favor. My plan of operation would  
be this: I would have the committee on  
plats and additions divide the suburbs up  
into wards. Then let each of these new  
wards vote by itself as to admission and  
at the same time elect officers. Some  
wards will vote to come in and will there-  
upon become a regular part of the city.  
Other wards may vote not to come in,  
and that, of course, will settle the matter.  
If Butte has any idea of making itself  
a candidate for the capital, it should show  
its claim by becoming a city of respecta-  
ble proportions. Instead of a city of 10,000  
people it should become a city of 25,000  
before it tackles the capital question, and  
it should do it this spring."

"I am not in favor of enlarging the city  
by wholesale," said Alderman Pascoe. "I  
am not in favor of doubling the popula-  
tion of the city at one jump. I believe in  
enlarging the city gradually. I am in  
favor of taking in South Butte this spring  
and stopping right there. That is enough  
for this year. I am not in favor of  
taking in Centerville and the  
Parrot corner just now, because  
they would prove too costly. They would  
have to be provided with everything. We  
would have to give them fire stations, po-  
licemen, lights and would have to put in  
sewers. The value of the property there  
is not sufficiently great to justify  
such expenditure. South Butte property  
is more valuable. If Centerville were  
annexed, it would have to be cleaned up  
first of all. If sewers were constructed  
there connecting with the sewers of Butte,  
the city would be flooded. The storm cul-  
vert could not carry away the refuse of  
Centerville and Butte, too, and there is  
not a sewer pipe in Butte that could begin  
to carry it all away. It is true that our  
sewers are not large enough, and such be-  
ing the case we must not overload them or  
the city will have a big bill of expense in  
rebuilding its sewer system."

Alderman Grandey expressed himself  
today as decidedly in favor of enlarging  
the city.

"Let all the suburbs come in that want to,"  
he said. "I doubt whether they will  
all come in, but if they do we will  
welcome them with open hearts."

A good many people in Centerville have  
expressed reluctance to join the city for  
fear of taxation, and say they will oppose  
any movement of the kind. Centerville  
should have government of some sort, for  
it badly needs police and fire protection,  
clean streets and electric lights. It  
probably, like Walkerville, find annexa-  
tion to the city preferable in every way to  
forming a government of its own.
